

REMARKS

Applicants appreciate the Examiner's indication in the Notice of Allowability mailed August 15, 2008 that the subject application is in condition for allowance with claims 1, 4 and 6 (renumbered 1 - 3) having been allowed.

The specification of the subject application has been changed to correct a minor typographical and/or grammatical error. The amendment is considered to enhance and further clarify the application, and requires no substantial additional amount of work on the part of the U.S. Patent and Trademark Office, such as a search, since the amendment does not include new matter, or alter the scope of the claims, but rather further clarifies the originally filed specification.

The amendment, having been shown to exclude new matter, to further clarify the application, and to require no substantial additional work on the part of the U.S. Patent and Trademark Office, is considered to be in condition for acceptance and entry of this amendment into the subject application is earnestly solicited.

Respectfully submitted,

Stuart B. Shapiro
